## FLEXIBLE DENTURES GUARANTEES & CLEANING

We have had a number of enquiries about having a written guarantee for flexible dentures and the best way to clean them. The Flexite material we use doesn't come with its own guarantee as such, even though it is virtually unbreakable. Part of the reason for the lack of guarantee from the manufacturers is probably down to the fact that the main area of failure in a flexible denture is breakage of the teeth used in the making of the denture.

### *Three Year Guarantee*

To provide patient peace of mind we are now going to issue our own written three year guarantee with all flexible dentures, providing we have been requested to use a suitable tooth, such as Natura or Enigma. We will still be happy to use almost any make of tooth but we can only offer the guarantee on certain suitable makes.

### *Cleaning and Aftercare*

Flexible dentures are very strong but they are made of a soft material which means that they are susceptible to surface scratching. Whilst this does not affect the performance of the appliance it can, over time, make them feel rough and seem difficult to clean. Many conventional denture cleaning products can make this issue worse as they are too abrasive. However, we can now supply the correct cleaning product for the dentures and would recommend that you provide the patient with a guarantee pack consisting of the written guarantee, the correct cleaning solution, cleaning instructions and a denture box. All of this would cost just £27.50 and contains enough cleaning agent to last up to three months. Replacement cleaning solution would cost £22.50.

If you would like further information please let us know.

### **AUGUST BANK HOLIDAY DATES**

We will send notices with the work nearer the time but as an early reminder we will be closed for the August Bank Holiday on:

**Monday 30 & Tuesday 31 August.**
